

MARK LUMAINO

FULL-STACK WEB DEVELOPER | TEAM LEAD | DEVOPS

Pandacan, Pinamungajan, Cebu, Philippines • +63 908 111 1357 • marklumaino@gmail.com

PROFESSIONAL SUMMARY

Full-stack web developer and team lead with 5+ years of experience delivering production web applications, WordPress platforms, and cloud-hosted systems. Experienced across frontend and backend development, API integration, containerization, CI/CD, Linux deployments, server administration, monitoring, documentation, and cybersecurity fundamentals.

CORE COMPETENCIES

Full-Stack Development • WordPress Engineering • REST APIs • Docker & Linux Deployment • CI/CD • AWS & Hosting Administration • Figma-to-Production UI • Team Leadership • Performance & SEO Optimization

PROFESSIONAL EXPERIENCE

Rak Son OPC | Mandaue City, Cebu

Aug 2024 – Present

Web App Engineer / Team Lead / Full-Stack Developer

- Develop and maintain production web applications using Next.js, Nuxt 3, NestJS, and Laravel APIs.
- Designed and implemented a full-stack decentralized exchange (DEX) system, covering user-facing interfaces and backend services.
- Containerize applications with Docker and deploy services to Linux servers; maintain environment configuration and release workflows.
- Set up GitHub Actions CI/CD pipelines to support repeatable, automated deployments.
- Integrate REST APIs and translate Figma designs into responsive, production-ready user interfaces.
- Build and maintain WordPress websites using Elementor Pro and support hosting/server environments including CyberPanel, Bluehost, and SSH.
- Coordinate team tasks, reporting, and OJT training while supporting troubleshooting and production operations.
- Maintain live web properties including rocksonotech.com, xode.net, and multipayx.net.

Human Incubator Inc. | Cebu City

Sep 2021 – Dec 2023

Software Engineer / WordPress Lead / DevOps

- Led development and delivery for 20+ Japanese clinic websites.
- Created custom WordPress themes, landing pages, and reusable website components.
- Managed deployments through GitHub and supported production release workflows.
- Performed SEO, page-speed, and performance optimization across client websites.
- Administered AWS infrastructure including EC2, Lightsail, and Route 53.
- Managed OpenLiteSpeed and cPanel server environments.
- Supported hiro-clinic.or.jp and its 12+ subdomains as a key multi-site project.

Freelance / Contract | Web Development

Web Developer

- Hogwild Toys — Elementor website build, migration, and domain setup.
- NetTrac Communications — WordPress and Laravel support, including GTmetrix performance work.
- Roadway Rescue — Commercial website development and SEO optimization.
